SUMMARY

Full Stack Web Developer with a background in Audit, Accounting, and Legal Studies. Full-time learner, passionate about personal growth. Effective at communicating ideas, leading when necessary, and combining creativity and problem solving to create user-friendly applications. Known by coworkers for personability, attention to detail, and accountability.

TECHNICAL SKILLS

Frontend: HTML, CSS, JQuery, JavaScript, Bootstrap, Bulma
Backend: MySQL, MongoDB, Express, ReactJS, Node, Handlebars, AWS, Webpack

PROJECTS

Grrrr'inder| https://github.com/AmyLipscomb/grrrrinderdos | https://grrrrinder2.herokuapp.com/
- Grrrr'inder is a pawsitively new way of connecting your furry friends with friends of their own through creating an online profile for your dog.
- Used GraphQL to work on the back-end and created mutations and queries in the utils folder for the front-end. Used React on the front-end to create a component for donations, utilizing Stripe.
- VS Code, GraphQL, Apollo Sandbox, MongoDB, React, Stripe, Node, Heroku

Brews & Chews | https://github.com/AmyLipscomb/brewsandchews2 |https://anthony-furjanic.github.io/brewsandchews/
- A website designed with both the extrovert and introvert in mind. Allows users to search for local breweries, as well as find creative food recipes.
- Utilized JavaScript and Bulma for the brewery API, to create a function that displays the data once a city or zipcode is searched within the search bar.
- JavaScript, Bulma, API's (Open Brewery, Spoonacular), VS Code

Note Taker|https://github.com/AmyLipscomb/note-taker | https://note-taker-amy.herokuapp.com/
- Allows users to create notes in one place.
- Utilized JavaScript to create routes, as well as HTTP requests to get, create and delete notes.
- JavaScript, HTML & CSS, Node.JS (npm packages, Express and Uniqid), VS Code, Heroku

EXPERIENCE

Accountant II
FIS, Philadelphia, PA | July 2020 - Current
